- (57) Claim

1. A mild conditioning shampoo capable of thoroughly cleansing and conditioning hair while maintaining a high foam level comprising 55 to 94.9wt% water, a cleansing surfactant in an amount of 5% to 25% by weight, and a cationic oil-soluble, water-dispersible cross-linked quaternary acrylate/acrylamide copolymer in an amount of 0.1% to 20% by weight.

13. A method of cleansing and conditioning hair, simultaneously, while maintaining a high foam level and excellent cleansing in a mild shampoo composition comprising contacting the hair with a mild conditioning shampoo comprising ^{55-94.9 wt %} water, an anionic cleansing surfactant in an amount of about 5% to about 25% by weight, and a cationic oil-soluble, water-dispersible cross-linked quaternary acrylate/acrylamide copolymer in an amount of about 0.1% to about 20% by weight.

24. A mild conditioning shampoo capable of thoroughly cleansing and conditioning hair while maintaining a high foam level substantially as hereinbefore described with reference to any one of the Examples.
